NeoGennie Back Office Mission Control

Turn scattered SOPs, policies, FAQs, and training material into an internal AI knowledge hub.

\$3,999 setup + \$999/mo

AI Mission Control

WHAT IT DOES

Help the team find approved answers faster while surfacing outdated or missing knowledge for review.

BEST FIT

Teams with internal knowledge gaps, repeated staff questions, inconsistent SOP lookup, or onboarding friction.

Back Office Mission Control Brochure Details

KEY CAPABILITIES

- Inventory and structure internal knowledge sources
- Create an approved internal FAQ / SOP assistant
- Support document search with source-aware responses
- Flag missing, outdated, or sensitive content for owner review
- Define ownership for corrections and periodic updates
- Help new or busy staff find consistent operating guidance

SAMPLE WORKFLOW

1. Team member asks an internal question
2. AI searches approved SOPs, FAQs, or policies
3. Answer includes approved context or source cue
4. Sensitive topics route to the right owner
5. Gaps are flagged for improvement

Built for a practical first version, then improved with real business feedback.

The MVP clarifies the core workflow first; optional add-ons expand integrations, reporting, or automation after fit is proven.
